

Lamoni Rose Hill Cemetery - Burials Sorted by Location

The shed divides Rose Hill between west and east sides. The old west side has 9 sections since we split 1, 3, and 5 into N and S parts. The 11 sections are known as Blocks on the east side, but only B3, B7, B8, B9, and B10 are for burials. The X and Y coordinate for each lot helps you find it. Start at the NW corner of the section. X is the headstone row count going east and Y is the lot count going south. Y is only useful as a guide since lots vary in size and the number of graves. That is, Y counts lots, not the headstones in the headstone row. Burial spaces are numbered 1 to 4, from S to N, for most lots, but "of" is sometimes used for differences like 2of3 means the middle of a 3-space lot. Other symbols are added for multiple burials in one space, such as 3w for the west end of space 3 for an infant buried at the head of a parent.

There are more lots per row in sections 1s and 3s than sections 5s, B7 and B8 (17 versus only 13 or 12). It is because 1s and 3s have the oldest platted lots with many 5' single-space lots. But most are 12' lots in 5s and 14' lots

This document lists burials section by section, then row by row (X), then by lot within row (Y), and finally by individual space within a lot. The order of burials for each headstone row is as you would encounter each burial walking N to S along the the headstone row at the cemetery. Each section begins on a new page and different headstone rows are separated by a line.

Code: NB=No Burial (monument only) NS=No Stone (unmarked) TM=Temporary Marker C=Cremains burial P=Pending A=Ashes scattered locally x2=2-in-1 burial

Section 1n This section has 18 rows of headstones, W to E (X= 1 to 18) and each row has 10 lots, N to S (Y=1 to 10)
